TRUST PRACTICE CHALLENGE

ABIM FOUNDATION®

SUBMISSION FORM (one per entry)

The ABIM Foundation has created the **Trust Practice Challenge** to help identify and promote existing practices that foster trust and trustworthiness in health care practice. For purposes of this Challenge, a "Trust Practice" is something done regularly and intentionally with the explicit goal of fostering trust. Even if the practice was not created for that goal, if the nominator believes that the effect has been enhanced trust, we are interested in learning about it. Our goal is to showcase ways that individuals, groups, organizations and institutions are nurturing trust in their daily operations. *(Please use Times New Roman, 12 point for your answers)*
