Beverages & Snacks

A surprisingly large portion of our calories (and money) can be consumed by beverages and snacks in between meals - sometimes without us even realizing how quickly it can add up.

Snacking throughout the day isn’t bad, especially if it helps get some extra nutrients in your diet! The goal of this section is to provide quick, low cost, and healthier alternatives to over-processed, nutrient deprived beverages and snack foods.

Did you know: Although containing some nutrients from fruit, fruit juices are often packed with added sugars equivalent to that of regular sodas. Try making your own juice, or diluting your juice with water in order to reduce your sugar intake.
**BEVERAGES**

**Fresh Fruit Soda**

Ready in **30 minutes**

Serves **8**

70 calories per serving (8oz.) vs 100-150 calories per can of regular soda

**Average cost per serving:** $1.55 (honey), or $0.80 (white sugar)

**Tips**

Garnish with frozen fruit instead of ice cubes for a fun twist.

Watch out for added sugars in frozen fruits. Many frozen fruits have been frozen in a sugar or syrup solution.

Honey is sweeter than white sugar! This means we can use less to achieve the same level of sweetness. Honey may also contain additional nutrients, and is often less refined than granulated white sugar.

No need to discard the leftover fruit after straining! Blend it into a smoothie, spoon on top of oatmeal, or spread onto a slice of toast with peanut butter.

This syrup can also be used to top the “South of the Border French Toast” breakfast recipe on page 14!

**Ingredients**

- 2 cups frozen raspberries/blackberries (recommended), or other available frozen fruit
- ½ cup water
- ½ cup honey, or ¾ cup granulated sugar
- ½ Crystal Light Lemonade powdered drink mix packet per desired number of servings
- 1 cup sparkling water per desired number of servings (plain or flavor of choice)

**Preparation**

1. Place frozen fruit and water into a saucepan over medium heat, stirring and mashing fruit as it warms.
2. Once fruit has defrosted, add honey or sugar. Stir to combine.
3. Turn heat to low. Let the mixture simmer for about 20 minutes, stirring occasionally until the mixture becomes a syrup consistency.
4. Remove from heat, and let cool.
5. Pour the mixture through a strainer into a bowl, pressing it through with a spoon to get as much syrup out as possible.
6. Chill the syrup in the refrigerator until ready to use.
7. To assemble soda: pour 2 tablespoons of the fruit syrup into a glass, along with ½ of a Crystal Light Lemonade packet. Top with 1 cup club soda. Stir to combine, then add ice.

1. In a blender or food processor, combine strawberries, 1/2 cup mango beverage, the sugar or honey, and ice.
2. Pulse until blended, then add remaining 1/2 cup mango beverage.
3. Blend until mixture is smooth; scraping down sides if necessary.
4. Pour mixture into an 8-inch square baking dish. Cover and freeze for 3 hours.

Breakfast

When thinking about a traditional breakfast, we often either think of heavy, greasy, and sugary meals, or light foods to grab on the go that simply hold us over until our first real meal of the day. Both of these options lack important nutrients to help us start our day, and may even reduce our energy levels and slow us down.

Did you know: Eating a light breakfast, or skipping it altogether, can make us feel less satisfied during the day and lead to late night snack cravings.

Having a heartier breakfast full of protein, fiber, and nutrients (and low in added sugars and saturated fats) can help keep you full, give you energy, and may reduce the urge to snack on empty calories throughout the day.
Booneville Breakfast Burrito

Ready in 15 minutes
Serves 4
275 calories per serving
Average cost per serving: $1.25

Ingredients

- 4 6-inch high fiber or whole wheat tortillas *See “TIPS” for fiber servings*
- 6 large eggs
- 1 15.5oz can pinto or black beans, drained and rinsed
- 1 tablespoon butter or oil
- 4 tablespoons salsa
- Recommended spices, added to taste: 1 teaspoon garlic powder, 1 teaspoon onion powder, ½ teaspoon chili powder, ½ teaspoon cumin, ½ teaspoon black pepper

Tips

Starting the day off with protein sources like eggs and beans will help keep you energized throughout the day!

When searching for a “high fiber” food, look for one that has at least 3 grams of fiber per serving (always check nutrition labels). The America Heart Association recommends, on average, 25 grams of fiber per day for adults, and 14-30 grams per day for children.

Make these ahead of time and freeze so they are available quickly in the morning (they can remain in the freezer for a month). To defrost, wrap individual burritos with a paper towel, and microwave for one minute OR place frozen burrito on a baking sheet, and bake in a preheated 350F oven for 10-15 minutes (or until hot in the middle).

Draining the liquid from the canned beans, and then rinsing the beans, helps decrease extra salt in the dish. Try this with all of your canned goods!

Preparation

1. Crack the eggs into a bowl and whisk together with any desired spices until combined.
2. Place a medium-sized sauce pan over medium heat, and add butter or oil to the pan.
3. Once butter or oil is melted, add eggs and scramble until fluffy.
4. Portion scrambled eggs into the 4 tortillas, and top with beans and salsa to your liking.
BREAKFAST

South-of-the-Border French Toast

RECIPE FROM DOLLAR GENERAL WEBSITE

Ready in 25 minutes
Serves 4
124 calories per serving
Average cost per serving: $1.30

Ingredients

- 2 eggs
- ¼ cup 1% low-fat milk
- ½ teaspoon ground cinnamon
- ½ teaspoon vanilla extract
- 4 6-inch high fiber or whole wheat tortilla wraps
- 1 cup frozen mixed berries (thawed)
- 1 teaspoon powdered sugar (optional)

Preparation

1. In a medium bowl, whisk eggs, milk, cinnamon, and vanilla until well blended.
2. Cut each tortilla into quarters, then place in egg mixture.
3. Allow it to soak up the egg mixture (2-3 minutes) then flip it, so that it absorbs the egg mixture on the other side (like you would do when making traditional French toast).
4. Coat a large skillet with cooking spray and heat over medium heat. Add 4 tortilla quarters and cook 3 to 5 minutes or until golden, turning halfway through cooking.
5. Remove to a platter and repeat with cooking spray and remaining tortillas.
6. Serve topped with mixed berries and powdered sugar, if desired. *See “TIPS” for fruit sauce*.

Tips

This recipe has the comforting feel of classic French toast, but thanks to the tortillas there is extra protein and about half the carbs of traditional white bread.

Watch out for added sugars in frozen fruits. Many frozen fruits have been frozen in a sugar or syrup solution.

Top this dish with a fun sauce! Use the syrup recipe from our “Fresh Fruit Soda” on page 4!

Loaded Egg Muffins

RECIPE FROM DOLLAR GENERAL WEBSITE
Ready in 30 minutes
Serves 6
127 calories per serving
Average cost per serving: $1.09

Tips
This recipe can also be made using 1 cup liquid egg substitute.

Make these ahead of time and freeze so they are available quickly in the morning (they can remain in the freezer for a month). To defrost, place an egg cup on a plate in the microwave, then cover with a bowl. Microwave for 1 minute.

Ingredients

- 2 teaspoons canola oil
- 1 cup frozen onions and mixed peppers (thaw and chop into bite-sized pieces)
- 1 cup frozen broccoli (thaw, and chop into bite-sized pieces)
- ½ teaspoon minced garlic
- 2 breakfast sausage links (thaw and chop into bite-sized pieces)
- 4 large eggs, cracked into a small bowl and whisked
- ¼ cup 1% low-fat milk
- ¼ cup shredded Mexican cheese blend
- Recommended spices, added to taste: ¼ teaspoon black pepper, ¼ teaspoon paprika

Preparation

1. Preheat oven to 375°F. Coat a 6-cup muffin tin with cooking spray.
2. In a large skillet, heat oil over medium-high heat until hot. Sauté pepper-onion mixture, broccoli, garlic, and sausage for 3 to 4 minutes or until heated through.
3. In a medium bowl, combine liquid egg, milk, cheese, sausage-vegetable mixture, and desired spices; mix well. Spoon evenly into muffin cups.
4. Bake for 18 to 20 minutes or until set in the center. Remove from the oven and run a knife around the edges to loosen them, remove from pan, and serve warm.
Lunch

While lunch may sometimes be overlooked, it plays a more important role than we realize. Lunch can sometimes be a thing that we eat simply to get through the day—spending money on the same fast food full of excess calories, sodium, and saturated fats while providing us with no real nutrition. However, lunch has the potential to give us something to look forward to and boost our mood in the middle of a dreary day with fun, interesting, and energy-providing dishes.

Did you know: Not all fats are created equal! When looking at your food labels, pay attention to the amount of saturated fat, which is found in many animal products and can have negative effects on our cholesterol. On average, the American Heart Association recommends no more than 13 grams of saturated fat per day (based on a 2,000 calorie diet). On the other hand, Unsaturated fat (commonly found in nuts, some fish, and avocados) can actually help improve cholesterol levels.
LUNCH

Cat Island
“Crab” Cakes

Ready in 30 minutes
Serves 3 (2 cakes per serving)
210 calories per serving/105 calories per cake
Average cost per serving: $2.00

Ingredients

- 2 cans (5 oz. each) StarKist Chunk Light Tuna in Vegetable Oil
- 2 large eggs, lightly beaten
- 3 tablespoons olive oil or butter (for frying- note that the cakes will only absorb about half this amount)
- 2 tablespoons real mayonnaise
- 2 tablespoons mustard
- ½ teaspoon minced garlic and/or onion
- Recommended spices, added to taste: 1 teaspoon dried parsley, ½ teaspoon black pepper, ¼ teaspoon paprika, ¼ teaspoon cayenne pepper.

Tips

This simple and cheap recipe is a surprising crowd pleaser, even for those who usually do not love fish! The tuna is a satisfying source of nutrition, but still creates a light dish that is not overly fishy or heavy-feeling in the stomach.

Ranch dressing, sour cream, or plain yogurt can be used in place of mayonnaise.

For a quick spread to top these tuna cakes, spoon some plain, unflavored yogurt into a bowl and stir in hot sauce and ranch seasoning mix (sold in 1oz. packets) to taste.

To freeze, be sure the tuna cakes first come to room temperature. They can be stored in an airtight container for 1-3 months. To reheat, place a tablespoon of olive oil in a pan over medium-low heat. Place frozen cakes onto the pan, and let them heat for 5-10 minutes.

Preparation

1. Drain the tuna well.
2. In a medium-sized mixing bowl, stir together tuna, eggs, mayonnaise, mustard, and spices.
3. Heat ½ tablespoon of butter or olive oil in a skillet over medium heat for each patty.
4. Scoop out ¼ cup of the mixture for each tuna cake, pressing the mixture into a “patty” shape.
5. Cook until golden, about 4 minutes on each side.
6. Best when served immediately with your choice of rice, veggies, and/or sauces.
